FINISH TECHNOLOGY

PVD (Physical Vapor Deposition)

PVD coating processes deposit a layer of high-density material that's only a few microns thick. Once applied, the coating is nearly impossible to remove, and won't wear off on its own. PVD finishes are state of the art.

Powdercoat

Dry metallic powder is applied electrostatically and cured in an oven at a very high temperature to set the coating. This method forms an extremely tough finish. Powdercoated surfaces do not have a protective coating. If not properly cared for, the surface can become scratched or chipped. It is extremely important that abrasives and chemicals do not come into contact with the finish.

Electroplate

This finishing process employs electrical current to coat the faucet with metal. This allows the finish to be resistant to corrosion and wear, and contributes to the product's overall durability.

Immersion plate

Immersion plating, also known as chemical or auto-catalytic plating, is a non-electro plating method that involves several simultaneous reactions in an aqueous solution which occur without the use of external electrical power. This process creates a high-quality and very durable finish.

Finish	Finish code	Description	Production method	Collection(s) available	Warranty
Unlacquered Brass	B	Raw brass is polished and left uncoated to naturally patina over time. A rich, living finish which can be left to gently tarnish or polished to restore its brilliance.	Living finish	UNION	No Warranty
Brushed Brass	BB	A warm brass finish, machine brushed for an even texture.	PVD	Heir, MPRO	Limited Lifetime
Brushed Black Chrome	BBC	Chrome is chemically darkened then hand brushed and finished.	Electroplated	UNION	Limited Lifetime
Brushed Gold	BG	A heavy coating of gold is applied, then hand-relieved to achieve a subtle, sophisticated texture.	PVD	Taos	Limited Lifetime
Brushed Nickel	BN	A heavy coating of nickel is applied then hand-relieved to achieve a subtle, sophisticated texture.	Electroplated	UNION	Limited Lifetime
Graphite	GR	A carbon-like coating that mimics the look and feel of forged steel.	PVD	Fenmore	Limited Lifetime
Matte Black	MB	Brass is polished, then a hard-wearing, durable, matte black coating is applied.	Immersion-plated	MPRO	Limited Lifetime
Matte Black	MB	Black powdercoating is cured using a high-heat process that creates a very durable, 'skin-like' finish.	Powdercoated	Taos	Limited Lifetime
Polished Chrome	PC, C or CP	A hard-wearing, highly polished finish, with a slightly cool tone.	Electroplated	All except Heir	Limited Lifetime
Polished Nickel	PN	A durable, highly -polished finish with a warm tone.	PVD	Heir, Berea, Darby, Leyden, Taos	Limited Lifetime
Polished Nickel	PN	A rich, sophisticated finish with a warm tone. This finish deepens over time, but can easily be restored to it's original luster	Electroplated	Belgravia, Waldorf	Limited Lifetime
Satin Nickel (Stainless)	SN, S or V	A heavy coating of nickel is applied, then hand relieved to achieve a subtle, sophisticated texture.' This finish is slightly more matte than BN.	PVD	Taos, MPRO, Wisp, Darby, Leyden, Berea	Limited Lifetime

FENMORE

COASTAL CHARM, ENGINEERED EXCELLENCE

With a nod to coastal holiday homes, Fenmore merges engineering and elegance.

The coining detail evokes days spent sailing the open waters. The softened geometric lines of the handle and high neck spout make Fenmore a true standout, summoning a sense of calm, strength, and refinement.

BEREA PRESSURE-BALANCE VALVE WITH DIVERTER TRIM

Two water outlets

Diverter alternates water flow between 2 outlets: tub spout/shower head, tub spout/handshower or shower head/handshower

Kerox pressure-balance cartridge

Pressure-balance cartridge maintains constant temperature in response to changes to hot and cold supply

Flow rate: 3-5 GPM at 45 PSI

This valve supplies water to the bottom outlet first, therefore the water outlet (shower head, handshower, wall spout) that is chosen as the default needs to be piped to the bottom outlet.

BATHTUBS

STRIKING AND POLISHED, SET THE STAGE WITH BATHTUBS OF DISTINCTION

At the core of our collection are enduring designs and groundbreaking materials.

Every Crosswater London bathtub is engineered for long-lasting beauty and exceptional performance. From classic to modern, Crosswater London bathtubs anchor the bathroom in brilliance and style.

CLEARSTONE MATERIAL

ClearStone is a milled sedimentary stone compound with molded polyester polymer coating. The coating is molded onto the bath surface (not painted) thus ensuring long-lasting performance in appearance, color, stability and resistance to scratching or cracking.

BEAUTY

ClearStone allows designers more scope to soften the outlines and details of a space with bathtubs that feature elegantly tapering edge details and an overall softer appearance with clean, dynamic lines. Each ClearStone tub is hand-polished for over ten hours. ClearStone material has a lustrous finish across modern and classic designs.

STRENGTH & STYLE

The composition of ClearStone creates a tough and hard-wearing compound ideally suited to modern demands for exceptional performance and endurance. Being a molded coating, ClearStone bathtubs have the highest resistance to accidental damage or thermal degradation.

QUALITY PERFORMANCE
COMES FROM WITHIN.

QUALITY COMES FROM WITHIN

Endurance, quality, economy and safety lay at the core of every Crosswater London thermostatic shower valve.

THE PERFORMANCE 'HEART' OF THE VALVE

'Vernet CA43' is the world's leading thermostatic cartridge due to its advanced technology in smooth and precise temperature control.

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another or turn off the water to shampoo your hair, the thermostat will automatically find the exact pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate showering experience.

QUALITY CERAMIC DISC CARTRIDGE

The basis for all high-quality shower valves is the performance of the internal turning parts - even after it has been used thousands of times. All Crosswater London thermostatic shower valves use Flühs ceramic disc technology inside the Vernet cartridges - the leading innovator, producer and supplier in the world of water supply products. Each valve is marked with a Flühs symbol as a sign of quality and compliance.

Silky smooth operation and precise water control are characteristic of Flühs products. All raw materials are highly resistant to acidic and alkaline solutions in the bathroom (soap, shampoo, etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

COMPONENTS

Crosswater London brassware are manufactured using Flühs and Kerox cartridges, Vernet thermostatic cartridges, Neoperl aerators, Parigi branded hoses and Fluidmaster fill valves, flush valves, and flappers.

All of these components are considered best-in-class and are used by top brands throughout the world.

FLÜHS

Unlike most others, the Flühs cartridge does not require a lubricant which deteriorates or washes away over time making the faucet difficult to operate. Made in Germany, Flühs is considered to be the best ceramic faucet cartridge and is preferred by manufacturers of high-end faucets.

KEROX

Manufactured by Kerox Kft, a Hungarian manufacturer that specializes in ceramic mixing cartridges for single-lever faucets. It has become the preferred cartridge for single-levers by high-end brands due to its reputation for reliable performance.

VERNET

Made in France at a factory that uses stringent quality control at the factory level. With a specially optimized thermostatic element and a highly advanced design of the regulation components, Vernet has developed cartridges that provide the best temperature regulation and safety in accordance with world-wide standards.

PARIGI

Founded in Milan in 1950, Parigi became part of the Neoperl Group in 2014. In 1975, Parigi patented the Parinox, the first flexible hose made of rubber and covered by stainless steel braiding. Parigi is considered to be a pioneer and quality leader in the field. Supply hoses are a key safety component delivering water to the faucet. The inner hose is made of dependable Softpex which has been proven in the market millions of times with a 0% failure rate.

NEOPERL

Aerators are from Neoperl, a Swiss company founded in 1959, which is considered to make the world's best. Aerators add air to soften the water streams so it will not splash. Today, they are also used to limit water volume to the lower flows required by federal and state water conservation laws. In some cases, they also prevent backflow that can result in the contamination of household drinking water. It is therefore important that this device be the best available.

FLUID MASTER

These toilet parts are found in more toilets than all other brands combined - it is the #1 brand of toilet repair parts worldwide. Toilet fill valves refill the toilet tank and bowl to the correct levels after flushing. They replace old-style ballcocks and other older designs. Toilet flapper issues are the leading cause of leaking or running toilets. They provide the seal for the flush valve and control the volume of water released to the bowl. Toilet flush valves control the release of water from the tank to the bowl when the trip lever is pressed.

COMPLIANCE

At Crosswater London, we pride ourselves on our track record of exceeding the industry's most stringent standards. In the UK, we hold more WRAS (Water Regulation Advisory Scheme) listings than any other British manufacturer. In order to obtain a WRAS listing we have to show that our products not only exceed British standards but that the quality of the products we supply to our customers is maintained.

This is also the ethos we have followed in North America, all of our basin faucets comply with low-lead standards.

We have faucets, shower heads and toilets that meet the water-saving requirements of both WaterSense and the California Energy Commission, as well as IAPMO (cUPC) and CSA listed product.

In order to achieve this we use the best components from top European suppliers such as Flühs, Neoperl, Vernet and Kerox. We have our own dedicated quality and compliance team who ensure that every product we make adheres to strict quality controls.

THE CROSSWATER LONDON WARRANTY

Our commitment to quality & excellence

CROSSWATER LIMITED WARRANTY

The following are the terms and conditions of Crosswater London's exclusive written warranty. No warranty by any person in addition to or different from those made in this limited warranty shall be binding on Crosswater London.

This warranty is limited to those original purchasers who purchase genuine Crosswater London products from its "AUTHORIZED DEALERS" and is not transferable. Proof of purchase from the original consumer purchaser must be made available to Crosswater London for all warranty claims.

Crosswater London provides this warranty on its products installed in a residential application.

MECHANICAL WARRANTY

A limited lifetime warranty on all Crosswater London products and a lifetime warranty on all KWC products is provided on all mechanical parts to be free from defects in material and workmanship under normal use for as long as the original purchaser owns their home. This warranty does not apply to the replacement of components where damage is caused by normal wear and tear.

CARTRIDGE WARRANTY

A limited lifetime warranty is provided on all ceramic disc cartridges. All other cartridges (including diverter, thermostatic and pressure balance cartridges) are warranted for a period of five (5) years from the date of purchase.

FINISHES AND DRAINS WARRANTY

Limited lifetime warranty on all Crosswater London finishes, except living finishes and drains which are excluded from the finish warranty. Lifetime warranty on all KWC finishes free from defects in materials and workmanship under normal use for as long as the original purchaser owns their home.

Due to the nature of drain usage, there is no finish warranty on any drain product (including pop-up drains, lavatory drains and tub drains).

The use of any lead-based acidic curing adhesive, mastic or plumber's putty will void the finish warranty.

Any product installed outdoors, in a marine environment or exposed to direct sunlight is excluded from the finish warranty.

CERAMICS AND FURNITURE

The warranty period on Vitreous China and Fireclay is limited lifetime.

The warranty period on Bathtubs is limited lifetime.

The warranty for Furniture & Hardware is five (5) years.

The warranty for mechanical components for toilets is five (5) years.

The warranty on the ITD Island Tub Adaptor is five (5) years.

The warranty on toilet seats is one (1) year.

EXCLUSIONS AND DISCLAIMERS

Removal of flow-limiting restrictors in any product will void the warranty.

WARRANTY CLAIMS

Warranty claims may be made by calling (844) 992-8371 or by writing to:

c/o Crosswater London

Forte Brands

393 Fortune Boulevard

Milford, MA 01757

technical@fortebrands.com

Proof of purchase (original sales receipt) from the original purchaser must be made available to Crosswater London for all warranty claims. This Limited Warranty applies only to products that are installed in the United States of America and Canada.

NOTE: Forte Brands LLC has no responsibility with respect to the warranty and claims made. Forte Brands LLC is merely the processor and conduit with respect to the same and customer agrees thereto for all purposes.

This warranty is void for any damages due to misuse, abuse, neglect, accident, improper installation, improper care of finishes, hard water or mineral deposits, potassium or salt-based water softener systems, exposure to corrosive materials or use in any manner contrary to Crosswater London installation instructions or intended use.

The use of any replacement parts other than genuine Crosswater London parts will void the warranty.

This warranty does not cover labor charges or associated costs for damages occurring during the removal, transportation, return or installation of products or replacement products.

This warranty is made to the original consumer purchaser in the original installation and is effective from the date of purchase, as shown on the purchaser's receipt. During the warranty period, Crosswater London will replace any part, which proves defective in material and/or workmanship under normal installation, use and service. Any covered faucet part that fails during the terms of this warranty will be replaced at

no charge. Replacement parts can be obtained from your local dealer or distributor or by returning the part to the factory; transportation charges prepaid, to Crosswater London.

This warranty is the exclusive warranty granted by Crosswater London and is in lieu of all other warranties of merchantability and fitness for a particular purpose and is further limited to defective parts replacement only. Labor charges and/or damage incurred in installation, repair or replacement, as well as incidental and consequential damages, are excluded. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

LIMITED COMMERCIAL WARRANTY

Crosswater London extends the above limited warranty to purchasers of products for industrial, commercial and business use upon the same terms and conditions and exclusions applicable to residential purchasers, except that the finish, cartridge and mechanical warranty is reduced to

DELIVERY RECEIPTS

On receipt of delivery, please inspect goods to ensure all items are in satisfactory condition.

Any missing items or damaged goods must be reported within three (3) business days of delivery and prior to installation. Any claims made outside of this time frame will not be accepted.

To submit a claim for damaged or missing goods, please send an email with details of the issue, purchase order number, and images to returns@fortebrands.com.

Crosswater London will not accept claims relating to goods that have been delivered to a third party forwarding agent for onward shipment.

Please note that all delivery dates are given in good faith. While every effort is made to deliver orders as promptly as possible Crosswater London cannot be held liable for any associated costs relating to delivery beyond the dates given in good faith.

INCORRECT ITEMS AND DEFECTIVE PRODUCT

If incorrect item(s) have been received, please contact Crosswater London as soon as possible. The correct item(s) will be shipped promptly and the incorrect item(s) will be picked up at the expense of Crosswater London.

Installation of product is deemed acceptance of product and Crosswater London shall not be liable for, and will not recognize, claims made after the start of the installation including:

- Claims of incorrect product
- Claims of incorrectly sized, colored, shaded or packaged product
- Claims of product not matching prior shipments; and/or any other product claims.

If a product fault has been identified following installation please contact Crosswater London technical support for assistance. Do not remove installed product(s) until instructed by Crosswater London Technical support. We will not honor claims for defective product after installation unless prior approval is obtained, in writing, from Crosswater London Technical Support. Similarly, if a part is missing, please do not reorder the complete item and request an RGA unless instructed by Crosswater London. In many instances, part(s) will be provided to resolve the issue, eliminating the need for a return.

If it is determined that a product is faulty and needs to be returned, a return label will be issued and full credit will be given once the product is received and inspected in our warehouse. Return labels expire 30 days after issue, and if allowed to expire Crosswater London is no longer responsible for return shipping.

RETURNS

Crosswater London offers the opportunity to return an item that is no longer required. In these instances, the item must have not been installed and must be in perfect condition (including packaging) and notification of the request must be received by Crosswater London within 30 days of receipt by dealer. A 25% restocking charge will be applied to all returns unless the item is being exchanged, in which case the restocking fee will be reduced to 12.5%. This does not apply to items that are marked special order/non-returnable. Customers are responsible for return shipping unless the product is deemed faulty. Please send all RGA requests to returns@fortebrands.com.

RGA paperwork must be included with all returns or the return will not be accepted.

Local returns/drop-offs will require a signature to indicate Crosswater London has received the return.

If returned goods are damaged, show signs of installation, or not in the original packaging, credit will be denied. The customer will be given the options to either have Crosswater London dispose of the goods or have the goods returned at customer's expense.

RGAs will be kept open for 6 weeks at which time they will be closed. Any returns received after this time will not be processed.

Please allow 5-7 business days from the date the return is received by Crosswater London for credit to be issued to accounts.

ADDITIONAL TERMS

Product designs and prices are subject to change without notice. Please see the website for the most current production information and prices.

Crosswater London reserves the right to discontinue products at any time without notice. Products listed as 'Phase Out' will only be available while supplies last. Please call to confirm availability.

Crosswater London will not accept returns on 'Phase Out' products after five months from the date of the announcement from Crosswater London. Any returns of such product during this five-month period will incur a 50% restocking fee.

The measurements given are intended for reference only, and are subject to change. Complete specification sheets and installation instructions are available at www.crosswaterlondon.com

Crosswater London assumes no responsibility for typographical errors.
