

crosswater^x
— LONDON —

"I wanted to build a company that was focused entirely on its customers, their specific needs and delivering exceptional levels of service."

"From the start, we introduced new and innovative products that differentiated us from the competition and delight our customers... always."

Dave Hance, Founder

Dave Hance

crosswater^x
— LONDON —

Crosswater London offers a complete bathroom solution, delivering European design and British style in distinctive ranges of brassware, fixtures and accessories. A curated collection of instinctively innovative products, Crosswater London offers products for every design genre from the sleek and modern to classic and traditional. Sourcing the finest materials, skilled craftsmanship and time-honored manufacturing techniques, Crosswater London is dedicated to creating products of form, function and beauty for every bath space. Founded in 1998, Crosswater London is part of the Bathroom Brands Group, Europe's largest independently-owned bathroom manufacturer serving 25 countries. Global headquarters are located in the UK, at Lake View House, our purpose-built 129,000 square foot state-of-the art facility. Dedication to product design, innovation, craftsmanship, and keen attention to customer service are the primary reasons for continued success.

British Style. European Design. Distinctive Character.

Explore the hand-forged artistry and exquisite quality of Crosswater London.

UNION

by crosswater^x
LONDON

PRECISION BRASSWARE **CAST IN ITALY**

UNION, setting a new standard in brassware engineering, style and performance. This innovative collection is a leap forward in design for the contemporary bathroom. Presenting Italian artisanry at its finest, each component is expertly cast, precision machined, polished and perfected to offer an uplifting bathroom experience.

In a move to challenge the traditional concept of bathroom fittings, UNION is engineered to provide unparalleled functionality and designed to make a statement. Only the very best components are used, coupled with stringent quality standards resulting in a product that will stand the test of time.

UNION brings you four distinctive finishes available across a complete collection of bathroom faucets, shower valves, shower heads and bath fillers.

A PASSION FOR BATHROOMS THAT SETS US APART

Today we celebrate 20 years of leadership in the industry. Global resources and long-trusted relationships ensure world-class design, craftsmanship and cutting-edge technology behind every collection.

Our London Headquarters, Lake View House, is home campus to a global operation. More than 130,000 square feet of office and warehouse space featuring a dramatic and dynamic, 10,000 square foot showroom. As a part of Bathroom Brands, we continue our journey as the largest independently-owned bathroom company in Europe.

Trusted by designers, architects and homeowners, we are proud to continue our tradition of excellence here in North America.

WHY CHOOSE CROSSWATER LONDON?

Product Design and Materials

Our talented design team, led by the company's founder David Hance, brings a fresh approach to creating beautiful products with cutting-edge technology. In pursuit of flawless perfection, instinctively innovative collections combine exquisite design and ground-breaking materials for a statement in every bathroom space.

Trademark Customer Service

A cornerstone of the Crosswater way is unparalleled customer service, from technical assistance to dispatch within 24 hours of order placement.

Our philosophy is "Going the Extra Mile" for every customer, every day.

We join forces with the best luxury plumbing showrooms in the industry. Working together, we research, design and bring to market the products and services that define luxury and value.

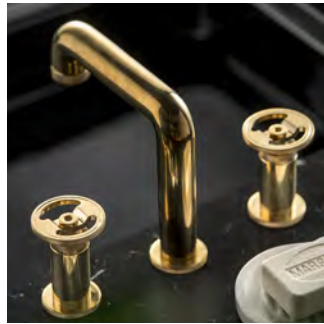

Skilled Craftsmanship

European design and time-honored manufacturing techniques guarantee products made for enduring beauty and performance. Artisans combine skill with precision engineering for the ultimate in bathroom innovation, quality and value.

FINISHES

	Finish code	Description	Production method	Range(s) available	Warranty
Brushed Brass	BB	A warm brass finish which is machine brushed for an even texture.	PVD	MPRO	Limited Lifetime
Brushed Black Chrome	BBC	Chrome is chemically darkened then hand brushed and finished.	Electroplated	UNION	Limited Lifetime
Brushed Nickel	BN	A heavy coating of nickel is applied then hand-relieved to achieve a subtle, sophisticated texture.	Electroplated	UNION	Limited Lifetime
Bronze	BZ	A chemically darkened surface with copper undertones.	Powdercoated	Berea, Leyden, Taos	Limited Lifetime
Matte Black	MB	Polished to a smooth surface then a hard-wearing, durable finish with a matte appearance is applied.	Electroplated	MPRO	Limited Lifetime
Polished Chrome	PC	A hard-wearing, durable finish, highly polished with a slightly cool tone.	Electroplated	All	Limited Lifetime
Polished Nickel	PN	A durable, highly-polished finish with a warm tone.	PVD	All except UNION	Limited Lifetime
Satin Nickel	SN	Similar to brushed nickel but with a slight matte appearance. A heavy coating of nickel is applied then hand brushed to achieve a subtle, sophisticated texture.	PVD	Berea, Leyden, Darby, Taos	Limited Lifetime
Stainless	S or V	A finish designed to simulate stainless steel. Matte in appearance with a slightly warm tone.	PVD	Wisp, MPRO	Limited Lifetime
Unlacquered Brass	B	Raw brass is polished and left uncoated to naturally patina over time. A rich, living finish which can be left to gently tarnish or polished to restore its brilliance.	Living finish	UNION	No Warranty

MPRO

FIVE DISTINCTIVE FINISHES & NEW KNURLED DETAILING

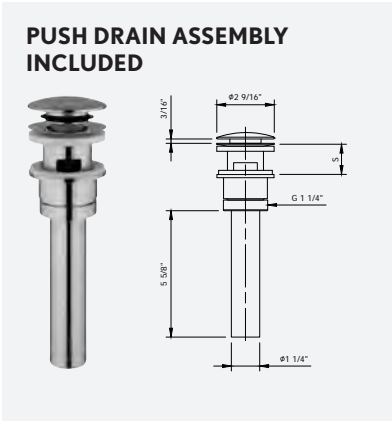

Combining superb function and precision design, MPRO meets the exacting demand of today's modern bathroom. Two new finishes join the MPRO collection, Brushed Brass and Matte Black, in addition to the introduction of a stunning knurled detail, creating a bathroom that is as beautifully crafted as it is designed. Iconic definition. Versatile style. MPRO.

DIAL

PUSH BUTTON VALVE TECHNOLOGY

With 11 separate flow positions, this innovation not only looks smart with three designs, it's smart on the inside using pioneering flow control technology and is available in both single and double outlet options. Intuitive, precise control.

Effortless performance. Dial up style with cutting-edge technology.

DIAL VALVES

Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 3 designs, it's smart on the inside using pioneering flow control technology. This allows for total control over your bathing and showering experience.

ADVANTAGES OF DIAL VALVES

- 11 separate flow positions, which offers the perfect flexibility between eco-friendly showering and a luxurious high pressure power shower
- Intuitively designed with a simple push-button function for all of the family to easily operate
- Responsive controls for instant shut off preventing residual water
- Thermostatic valve technology for precise temperature control
- Clear symbols to easily identify functions
- Three stylish designs to choose from
- Suitable for bath and showering environments
- Single or double outlet options, as well as a bath filler option with an integrated handset
- Double outlet options can be used with individual or both outlets active at the same time

SLICK CONTROLS

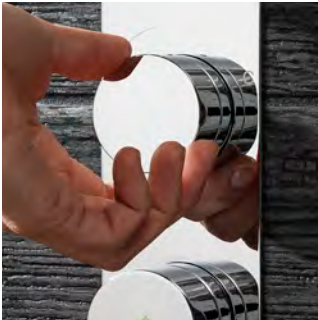

SMART DESIGN & EFFORTLESS PERFORMANCE

Push the top dial once to start/stop water flow

Turn to increase/reduce the water flow

Turn the middle dial to adjust the temperature

Push the bottom dial to start/stop water flow of an additional outlet

DIAL CENTRAL 1000 THERMOSTATIC VALVE TRIM

- One water outlet

BATHTUBS

STRIKING AND POLISHED, SET THE STAGE WITH BATHTUBS OF DISTINCTION

At the core of our collection is enduring design and groundbreaking materials. Every Crosswater London bathtub is engineered for long-lasting beauty and exceptional performance. From classic to modern, Crosswater London bathtubs anchor the bathroom in brilliance and style.

DUROCOAT® MATERIAL

The main component of DUROCOAT® material is genuine dolomitic marble, a metamorphic rock of natural transformation estimated to be over 500 million years old. Consisting of 96% calcium magnesium carbonate, a natural mineral, the powder is produced by disintegrating and purifying the marble to create this groundbreaking material.

BEAUTY

The unique physical properties of DUROCOAT® ensure great reliability in manufacturing complex shapes. This is evident in the crisp details of the Waldorf bath. DUROCOAT®'s high-performance material protects the surface and ensures a flawlessly smooth finish for years to come.

CLEARSTONE MATERIAL

ClearStone is a milled sedimentary stone compound with molded polyester polymer coating. The coating is molded onto the bath surface (not painted) thus ensuring long-lasting performance in appearance, color, stability and resistance to scratching or cracking.

BEAUTY

ClearStone allows designers more scope to soften the outlines and details of a space with bathtubs that feature elegantly tapering edge details and an overall softer appearance with

STRENGTH & STYLE

With its unique technological properties, DUROCOAT® demonstrates a 35% increase in durability over comparable materials. Fully de-aerated, this resilient material forms a uniform core structure from layers of identical density.

Made from the finest materials, Crosswater London bathtubs are warm to the touch with brilliant white color and high-gloss sheen. Scratch and stain-resistant with a solid and tough surface, every tub is protected by our exclusive sanitary gelcoat. Extremely hygienic, easy-to-clean surfaces prevent the build-up of bacteria and dirt, resulting in a safer bath environment. Relax and enjoy.

clean, dynamic lines. Each ClearStone tub is hand-polished for over ten hours. ClearStone material has a lustrous finish across modern and classic designs.

STRENGTH & STYLE

The composition of ClearStone creates a tough and hard-wearing compound ideally suited to modern demands for exceptional performance and endurance. Being a molded coating, ClearStone high-gloss bathtubs have the highest resistance to accidental damage or thermal degradation.

PEACE OF MIND

Every ClearStone bath is packaged to ensure safe delivery.

- Protective film is applied to the surface of the bath
- Foam is wrapped around the edges
- A plastic bag is wrapped around the bath
- The bath is placed in a unique carrying bag with handles on each side. This bag allows the bath to be easily carried to place, minimizing risk of damage
- The fully-protected bath is then placed on a thick cardboard surface on a wooden platform

- The bath is encased in a 1/2"-thick cardboard box with reinforced corners and honeycomb insulation which offers outstanding unidirectional compression resistance during transport

FIXTURES

WALDORF BACK-TO-WALL BATHTUB

Size: L 65-3/4" x W 34-1/2" x H 23-5/8"

Constructed of DUROCOAT® cast mineral marble

Sits flush against the wall

Ledge provides platform for deck-mount tub filler

Ledge can be drilled for two, three, four or five holes for tub filler (supplied undrilled)

Generous size and center drain position comfortably accommodates two bathers

Water depth: 14"

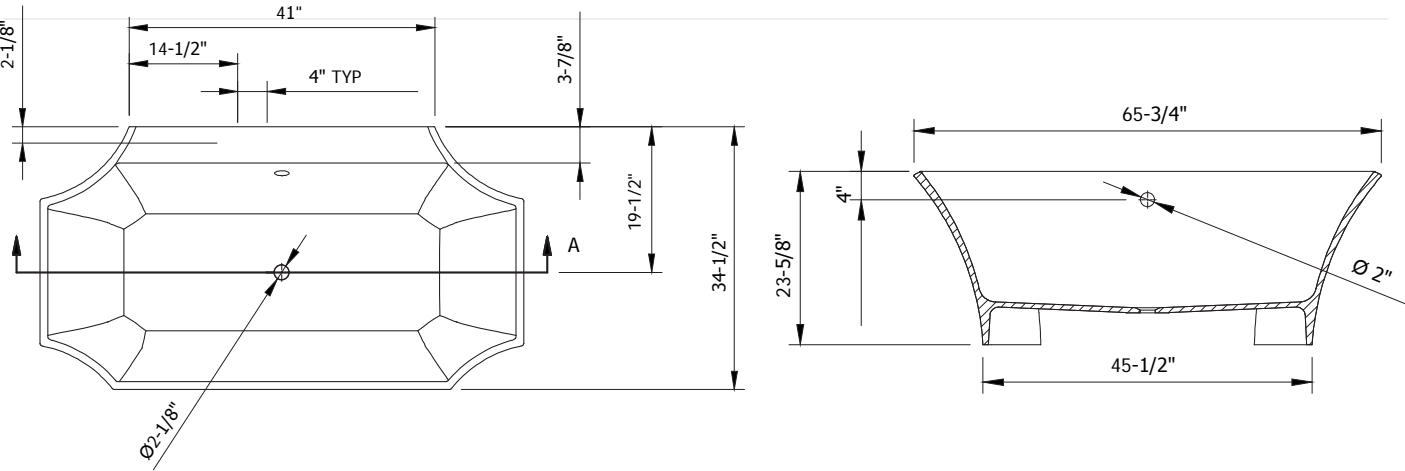

Displaced capacity: 55 gallons (displaced capacity is the bath's capacity less 18.49 gallons)

Weight: 352 lbs

WASTES, TRAPS AND ROUGHS

QUALITY PERFORMANCE COMES
FROM WITHIN

QUALITY COMES FROM WITHIN

Endurance, quality, economy and safety lay at the core of every Crosswater London thermostatic shower valve.

PRECISION TECHNOLOGY

THE PERFORMANCE ‘HEART’ OF THE VALVE

‘Vernet CA43’ is the world’s leading thermostatic cartridge due to its advanced technology in smooth and precise temperature control.

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another or turn off the water to shampoo your hair, the thermostat will automatically find the exact pre-set temperature when you recommence your shower, allowing you to relax and enjoy the ultimate showering experience.

RELIABILITY

LIMITED LIFETIME WARRANTY

The key element of the valve technology is the ingenious ‘thermo-brain’ feature. The high-quality materials used for this thermo-brain greatly minimize potential of lime scale settling on working parts, which extends the lifetime and performance of the valve. The lifespan is a minimum 50,000 cycles, which equates to a family of four showering twice per day for up to 17 years! (dependent upon water quality and delivery conditions).

By installing a Crosswater London thermostatic shower valve you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater London thermostatic shower valve will pay for itself over a short period of time.

DURABILITY

QUALITY CERAMIC DISC CARTRIDGE

The basis for all high-quality shower valves is the performance of the internal turning parts - even after it has been used thousands of times. All Crosswater London thermostatic shower valves use Flühs ceramic disc technology inside the Vernet cartridges - the leading innovator, producer and supplier in the world of water supply products. Each valve is marked with a Flühs symbol as a sign of quality and compliance.

Silky smooth operation and precise water control are characteristic of Flühs products. All raw materials are highly resistant to acidic and alkaline solutions in the bathroom (soap, shampoo, etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

SAFETY

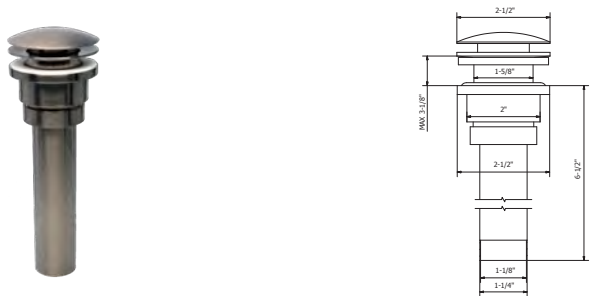

PRECISION IN TEMPERATURE & WATER FLOW CONTROL

Once you have selected your preferred water temperature it will remain unchanged for the duration of your shower, so there’s no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Vernet cartridge has precise temperature control and automatic shutdown should a cold water failure occur, and the anti-scald function is individually checked on each cartridge prior to leaving the factory to give you peace of mind.

The Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a toilet is flushed, the cartridge ensures that the temperature is maintained within 1°C below/above the set temperature.

COMPLIANCE

At Crosswater London we pride ourselves on our track record of exceeding the industry’s most exacting standards. In the UK, we hold more WRAS (Water Regulation Advisory Scheme) listings than any other British faucet manufacturer. In order to obtain a WRAS listing we have to show that our products not only exceed British standards but that the quality of the product we supply to our customers is maintained.

This is also the ethos we have followed in North America. All our basin faucets comply with low lead standards. We have faucets, shower heads and toilets that meet the water saving requirements of both WaterSense and the California Energy Commission.

Not content with simply meeting the relevant ASME standards, we have chosen to seek IAPMO listing so we can apply the cUPC mark to our products. Again, we do this to assure our customers that we not only comply with the relevant legislation but that we maintain the highest possible quality standards throughout our product range.

In order to achieve this we use the best components from top European suppliers such as Flühs, Neoperl, Vernet and Kerox. We have our own Research and Development team, our own product designers and a dedicated quality and compliance team who ensure that every product we make adheres to strict quality controls.

THE CROSSWATER LONDON WARRANTY

Our commitment to quality & excellence

CROSSWATER LIMITED WARRANTY

The following are the terms and conditions of Crosswater London USA's ("Crosswater London's") exclusive written warranty. No warranty by any person in addition to or different from those made in this limited warranty shall be binding on Crosswater London.

LIMITED COMMERCIAL WARRANTY

Crosswater London products used commercially are warranted by Crosswater London to be free from manufacturing defects for a period of one (1) year from the date of acquisition by original purchaser. This limited warranty is subject to the "warranty exclusions and disclaimers" set forth opposite.

LIMITED RESIDENTIAL WARRANTY

Crosswater London warrants that it will, at its election, repair, replace or make appropriate adjustment for any product that proves defective in materials and/or workmanship under normal residential installation, use and service within the warranty period for that product as stated in the "Residential Warranty Periods" set forth below. This limited warranty is limited to normal domestic use only and excludes damage resulting from reasonable wear and tear, misuse, abuse, neglect, or improper installation, maintenance and repair. This limited warranty is provided to the original purchaser only and is not transferable. Labor charges incurred by the purchaser to repair, replace, install or remove any product are not covered by this warranty.

This limited warranty is subject to the "warranty exclusions and disclaimers" set forth opposite.

RESIDENTIAL WARRANTY PERIODS

All Crosswater London products are covered by a Limited Lifetime warranty except mechanical parts of toilets and ITD-5135 (5 years), and toilet seats (1 year).

FINISHES AND DRAINS

Limited Lifetime warranty on all finishes except living finishes and drains which are excluded from the warranty. Due to the nature of drain usage, there is no finish warranty on any drain product (including lavatory and bathtub drains).

WARRANTY EXCLUSIONS AND DISCLAIMERS

To the maximum extent permitted by law, Crosswater London makes no other warranty, express or implied. To the maximum extent permitted by law, Crosswater London expressly disclaims the implied warranties of merchantability and of fitness for a particular purpose, and all other obligations or liabilities on the part of Crosswater London. Under no circumstances shall Crosswater London's liability to buyer or any third party, whether in contract, in tort, under any warranty, in negligence or otherwise, exceed the purchase price paid for the product. In no event (including with respect to any implied warranties that may not be waived or disclaimed as a matter of law) will Crosswater London be liable for any economic, special, incidental, indirect or consequential damages, whether based on breach of warranty, breach of contract, negligence, strict

liability, or any other legal theory or otherwise. Without limitation to the foregoing sentence, damages that Crosswater London will not be responsible for include, but are not limited to: loss of profits, loss of savings or revenue; loss of use of the product or any associated equipment; cost of capital; cost of any substitute equipment, facilities, or services; downtime; the claims of third parties, including customers; loss of goodwill, loss of business opportunities and/or damages on account of personal injury, physical harm or injury to property.

To the maximum extent permitted by law, Crosswater London is providing this limited warranty in lieu of all other warranties, expressed or implied. To the maximum extent permitted by law, any implied warranty, including the implied warranties of merchantability or fitness for a particular purpose, are limited in duration to the duration of this warranty, or the applicable limitations period set by your state or province, whichever is shorter.

WARRANTY CLAIMS

Warranty claims may be made by calling (844) 992-8371 or by writing to:

Crosswater London
393 Fortune Boulevard
Milford, MA 01757

info@crosswaterlondon.com

Proof of purchase (original sales receipt) from the original purchaser must be made available to Crosswater London for all warranty claims. This Limited Warranty applies only to products that are installed in the United States of America and Canada.

Crosswater London USA is a trade name of Bathroom Brands US, LLC, which is solely responsible for this warranty. Effective: September 2018

THE CROSSWATER LONDON

TERMS & CONDITIONS

DELIVERY RECEIPTS

On receipt of delivery please inspect goods to ensure all items are in satisfactory condition.

Any missing items or damaged goods must be reported within 5 days of delivery and prior to installation. Any claims made outside of this time frame will not be accepted.

To submit a claim for damaged or missing goods, please send an email with details of the issue, purchase order number, and images to returns@crosswaterlondon.com.

Crosswater London will not accept claims relating to goods that have been delivered to a third party forwarding agent for onward shipment.

Please note that all delivery dates are given in good faith. While every effort is made to deliver orders as promptly as possible Crosswater London cannot be held liable for any associated costs relating to a late delivery.

INCORRECT ITEMS AND DEFECTIVE PRODUCTS

If incorrect item(s) have been received, please contact Crosswater London as soon as possible. The correct item(s) will be shipped promptly and the incorrect item(s) will be picked up at the expense of Crosswater London.

If a product fault has been identified following installation please contact Crosswater London technical support for assistance. Please do not remove the installed product until instructed by Crosswater London as the issue may need assessment. Similarly, if a part is missing, please do

not reorder the complete item and request a RGA unless instructed by Crosswater London. In many instances, part(s) will be provided to resolve the issue, eliminating the need for a return.

If it is determined that a product is faulty and needs to be returned, a return label will be issued and full credit will be given once the product is received in our warehouse. Return labels expire 30 days after issue and if allowed to expire Crosswater London is no longer responsible for return shipping.

Any labor costs relating to a defective Crosswater London product may be submitted for review and will be reimbursed at the sole discretion of Crosswater London. All labor compensations will be in the form of a Crosswater London dealer account credit. Please refer to the guarantee for full warranty terms and conditions.

RETURNS

Crosswater London offers the opportunity to return an item that is no longer required (consumer has changed mind/specification). In these instances, the item should be uninstalled and in perfect condition (including packaging) and notification of the request must be received by Crosswater London within 30 days of receipt. A 25% restocking charge will be applied to all returns unless the item is being exchanged, in which case the restocking fee will be reduced to 12.5%. This does not apply to items that are marked special order/non-returnable. Customers are responsible for return shipping unless the

product is deemed faulty. Please send all RGA requests to returns@crosswaterlondon.com.

RGA paperwork must be included with all returns or the return will not be accepted.

Local returns/drop-offs will require a signature to indicate Crosswater London has received the return.

If returned goods are damaged or not in the original packaging, credit will be denied and the option offered for Crosswater London to dispose of the item(s) or for the item(s) to be returned.

Returns will be kept open for 6 weeks at which time they will be closed. Any returns received after this time will not be processed.

Please allow 5-7 business days from the date the return is received by Crosswater London for credit to be issued to accounts.

Book revised June 2019.
